Profile

Results-driven Senior Consultant with extensive experience in application development, team leadership, cloud technologies and architectural design.

Proven track record of managing small, agile teams to deliver high-quality, scalable solutions across diverse platforms. Skilled in translating complex business requirements into robust technical architectures, mentoring developers, and driving best practices in software engineering.

I'm a hard working developer who does freelancing in spare time for 6 years. You can find some of the projects I have successfully delivered to my clients at the end of the resume.

Professional Experience

Senior Consultant

12/2021 – Present

Avanade / Accenture

Leading small cross-functional teams in the design and development of mobile applications. Responsible for defining and implementing scalable architecture, establishing best practices, and ensuring code quality across projects. Collaborate closely with stakeholders to translate business requirements into technical solutions while mentoring developers and overseeing end-to-end delivery.

Consultant

12/2018 – 12/2021

Avanade / Accenture

Led the frontend efforts of a mid-sized team working on UWP application for Microsoft Surface Hub devices. Optimized the rendering process on a complex scheduler-mixer controls by refactoring the UI control set and controls used in Covid medicine production.

Software Developer

09/2014 – 10/2018

TCM

Designed custom CRM/Sales solutions for pharmaceutical companies in Turkey with over 5.000 active sales people on the field. Still actively used with little maintenance.

Developed a cross platform application for iOS and Android phones and tablets to support this backend solution.
